

# Summer 2022 Registration Details

All details of our Summer 2022 schedule at 4-H Camp are pending Department of Health regulations in regards to COVID-19. It is possible there will be 4-H Camp entrance requirements entailing testing, vaccines or other mitigation protocols. We are not anticipating limiting capacity in Summer 2022, but if limited capacity is required bunks will be assigned in chronological order regarding date of registration. For any registered campers who are unable to attend Summer '22 due to COVID restrictions or protocol, full refunds or credits will be arranged.

We currently only have availability for campers to sign up for ONE session of 4-H Camp. For campers looking for extended time at Camp, we have our BIG Session - 18 days of summer camp. (However, we do recommend that this session is for returning campers who have already spent a week at 4-H Camp, or for new campers who are confident they'd be up for such a long duration in the 4-H Camp environment away from home.)

Campers who would like an additional session can join our waitlist, and we will be in touch in the spring if we are able to accommodate multiple sessions.

Class sign-ups will occur in advance of Summer Camp, in the spring. Campers attending a one-week session will select 2 classes. Campers attending the BIG session will select two classes in addition to a BIG class.
